互联网+药学服务
INTERNET + PHARMACEUTICAL CARE

Invitation

Since founded in 2009, Forbidden City International Pharmacist Forum (FC · PF) has insisted on its core theme - Let' s practice together. Based on the clinical practice of pharmacy, we are dedicated to provide pharmacists a platform for displaying their career achievements, exchange their knowledge and skills, and share new inspirations and technologies.

With the launch of national strategy of “Internet +” and release of the “Recommendation on 13/5 Plan development”, the in-depth reforming of medical and health sector will inevitably have a profound impact on traditional pharmaceutical care model. In the Internet era, the way to develop professional value of pharmacists, the way to play a new role, the way to improve professional skills are challenges and opportunities faced by every pharmacist.

The 2016 Forbidden City International Pharmacist Forum (2016 FC · PF) will be held on May 6th-8th, 2016 in Beijing, China with the theme of “Internet + Pharmaceutical care”. At that time, there will be more than 300 medical and pharmaceutical experts from more than 20 countries and regions giving wonderful speeches covering 17 different fields, including pharmacy administration, education and scientific researches, the latest academic achievements, clinical pharmacy, et al. The 14th CJK Injection Seminar and The 8th Beijing Rational Use of Anti-infective Drugs and Bacterial Resistance Forum will be held at the same time. We will also be opening the 1st “Lighting dream” Chinese Pharmacist Speech Contest; The 2nd Professional Skill Contest of Pharmacists; Young Pharmacists Debate Competition; and Pharmacist Photography Competition, et al. Meanwhile, 16 Workshops, excellent poster exhibition and photo exhibition will be all happening as well, to provide a platform for every participant to display and exchange experience with each other. We endeavor to provide every participant with fruitful and joyful experience.

We expect your participation in 2016 Forbidden City International Pharmacist Forum (FC · PF) to build pharmaceutical care in the Internet era together. We aimed at grasping the trend of the times, improving academic ability and practicing pharmaceutical care.

Let' s practice together!
